

The Pastoral EAP: Protecting Your Church's Greatest Asset

The Problem: The "High-Cost" of Burnout

Ministry is a high-pressure calling. When pastors carry crisis, conflict, and community weight without a safe outlet, the church pays the price in:

- Turnover: The financial and spiritual cost of replacing a leader.
- Decision Fatigue: Poor choices made under chronic stress.
- Moral Failure: Often the final result of untreated isolation and burnout.

The Solution: Specialized, Clinical Support

Most EAPs are too generic for ministry. Our program is built by a pastor for pastors. We provide spiritually-integrated, clinically-excellent care specifically for pastors and staff.

Cost Case Study: Stone Creek Community

- Staff Size: 5 Employees
- Benefit: 5 Sessions per year, per employee
- Rate: \$100 per session
- Max Annual Liability: \$2,500 (Actual cost is usually lower)

Take the Next Step

Protect your team and your mission. Schedule a 15-minute consultation to receive a customized EAP proposal for your church.

Why This Program?

- Clinical Expertise: Led by a Licensed Clinical Social Worker (LCSW).
- Cultural Fluency: No need to explain church systems or theology.
- Ironclad Privacy: Fully HIPAA-compliant. No sensitive info is ever shared with the board.

How It Works

We make the implementation seamless for your leadership team:

1. Simple Contract: The church authorizes a set number of sessions per staff member.
2. Confidential Access: Staff contacts us directly. You are not the "middleman."
3. Virtual & In-Person: Flexible care for busy schedules.
4. Fiscal Stewardship: Billed only when used. If no one uses a session, the church doesn't pay for it.
